Context update (Afar IDPs)

- According reports from the AFP 8068 are U5C and 3752 PLW there are 27,757 registered IDPs in three locations of Aba'ala area.
- The IDPs living in open space with no shelter and other lifesaving assistance since they were displaced.
- The AFP have mobilized limited antimalaria medicine and volunteer health workers to respond the malaria outbreak.
- OCHA, UNDSS and WFP led access and security mission was conducted b/n 11th -13th January via Afar and has visited Megale woreda centre and Faro kebele.
- However the team couldn't visit the three kebeles (Tonsa, Hida, Aradu). However, Megale local authorities reported some 3,500 people are in need of assistance in Tonsa.

Context update.....

- OCHA and UNDSS conducted road access and security assessment mission on 5-6 January via Adigrat – Fatsi – Erob – Bizet -Sero- Enticho- Adwa -Edaga Arbi and Nebelet.
- Couldn't pass beyond kerseber, Erob-Dewhan but managed to pass Adigrat-Sero-Enticho-Adwa-Edagarbi-Nebelet-Hawzen.
- Movement of supplies and humanitarian staff continued to Adwa, Axum and Shire since Dec 22,2022, 14,463 MT of food and non-food items- to Central and NW zones of hard to reach areas.
- Fuel has started entering Tigray region since 10th January
- Access mission to Maitsebri on 10th January by OCHA,UNDSS and UNHCR

Supply transported to Hard to reach areas of Central and NW zone

Re

Food Cluster Update

Regional Emergency Coordination Center

Food Cluster situational update as of 12 January 2023

□ Key updates:

- ❖ Since mid-November 2022 when humanitarian food supplies resumed to enter Tigray, around 90,000 MT of food for Round 2 and Round 3 along with fuel stock has been brought into the region as of 12 January.
- ❖ Recent IDP assistance:
 - ❖ Food being dispatched to Mehoni and Maychew (Southern Zone) today (13 Jan.)
 - ❖ Partners' internal review on caseload reallocation - assistance for recent IDPs (displaced from Rama, Chila, Ahsea, Adet and Egela, etc) in Adwa, Axum, Abi Adi, Adigrat and Hawzen
 - ❖ Food distributed to more than 135,000 recent IDPs in Mekelle.

FOOD stock movement through the four corridors by WFP and JEOP - as of 12 January, 2023	
Corridor	Arrival
<u>Semera-Mekelle</u> route	~66,100 MT
Gondar-Debark route	~3,000 MT
Gondar- <u>Humera</u> route	~11,300 MT
<u>Kombolcha-Mekelle</u> route	~9,200 MT
TOTAL	~89,600 MT arrived in Tigray since 16 Nov.

Food Cluster situational update as of 12 January 2023

□ Key updates:

- ❖ **Humanitarian access, particularly in border areas, areas off the main roads and locations requiring cross-line movements, continues to be challenging for food response. As of 12 January, some woredas remain either fully or partially inaccessible for food partners:**
 - ❖ *In Central Zone - Adet, Adwa, Aheferom, Ahsea, Chila, Edaga Arbi, Egela, Emba Sieneti, Endafelasi, Hahayle, Naeder, Rama and Tahtay Maychew.*
 - ❖ *In Eastern Zone - Erob, Gulo Mekeda and Zala Anbesa town.*
 - ❖ *In North Western Zone - Adi Hageray, Dima, Laelay Koraro, Seyemti Adyabo, Tahtay Adiyabo, Tselemti, and Zana.*
 - ❖ *In Southern Zone - Chercher and Oflla.*

R3 / 2022 Mekelle food distribution Update

- **522,707** (111,213 IDP and 411,494 Host) **beneficiaries** has been assisted and 8,896MT of the three commodities distributed to the intended beneficiaries

Accomplishments in the week (06 January 2023- 12 January 2023)

No.	Activity description	Plan	Achievement	Gap	Remark (explanation for over/under achievements)
1	Food dispatched through four corridors into Tigray (in MT)	32,725 MT	800 MT		<ul style="list-style-type: none"> Current pipeline constraint for R3, wheat stock to arrive at port on 13 Jan.
2	# of people assisted in the week	997,966 people	200,007 People	777,959 People	<ul style="list-style-type: none"> More fuel required for distribution and monitoring Late reporting due to comm. and fuel challenges Delay in MBL preparation
3	Food dispatched to different FDPs (in MT)	11,101 MT	2,546 MT	8,555 MT	<ul style="list-style-type: none"> Insufficient cash Some woredas are fully or partially inaccessible

Food Cluster situational update as of 12 January, 2023

Key updates:

❖ For R1 of 2022

- ❖ As of 10 November, JEOP dispatch (48,299 MT; 93%) + WFP dispatch (24,846.7 MT; 68%) = 73,145 MT (83% in total).
- ❖ During early August and late October: partners assisted 4,565,263 people (88% of total planned caseload of 5.2 million people by non-governmental partners) with 72,604 MT of food in 75 woredas as of 10 November.

❖ For R2 of 2022

- ❖ Total dispatch: 79,584 MT to 73 woredas; Total distributed: 66,995 MT to 3,948,209 people in 68 woredas.
 - ❖ JEOP dispatched 45,700 MT to 48 woredas and distributed 38,084MT of food to 2,248,919 people in 45 woredas .
 - ❖ WFP dispatched 33,884 MT to 25 woredas and distributed 28,911 MT of food to 1,699,290 people in 23 woredas, including more than 135,900 new IDPs in Mekelle.

Key Challenges (12 January, 2023)

- Unable to address the humanitarian food needs of 24% of the target population by all food partners (in 2nd Round of 2022).
- Humanitarian access, particularly in border areas, areas off the main roads and locations requiring cross-line movements, continues to be challenging for food response.
- All food partners have to continue relying on humanitarian flights to bring cash into the region while banking service, gradually resuming in the main towns, is yet fully functional. Significant amount of cash is required for partners to cover relevant costs for loading, offloading, dispatch and monitoring as well as paying previous credits.
- Together with the local authorities and communities, partners are working on re-targeting to include people who are newly displaced or experiencing secondary displacement in the caseload and identifying other most vulnerable people in need based on available vulnerability information (for instance, demographic and socio-economic data). This exercise has been very challenging due to fluid population movements, high number of displaced people, limited or non-existing local government structure, presence of multiple armed actors in some areas, and lack of documentation among IDPs.

Way Forward (12 January, 2023)

- To support partners in providing timely and adequate assistance to the most affected populations with limited resources, resuming unrestricted flow of commercial supplies into Tigray and ensuring that civil servants, having not been paid for more than 18 months, receive their salaries is crucial in addition to gradual resumption of essential services (including banking, communication and other enablers) across the region.
- Sustaining the ongoing food assistance through the most appropriate modalities, complementing it with agriculture and livelihood support in collaboration with other clusters is critical to improve food security in the region and prevent further deterioration. It is expected that food assistance may be needed at least up to next main harvest season in late 2023. Scaling up support for agricultural production, market integration and early recovery activities with provision of regular and predictable assistance is urgently needed to reduce the food gaps in Tigray.

Tigray

Resumption of Cargo Movement to Tigray via three corridors

PROCEDURES TO GET EDRMC CLEARANCE FOR THE MOVEMENT OF HUMANITARIAN CARGO WITH SUPPORT OF THE LOGISTICS CLUSTER VIA 3 ACCESSIBLE CORRIDORS: MEKELLE-SEMER, GONDAR-SHIRE, KOMBOLCHA-MEKELLE

Convoys are not required to move humanitarian cargo. Partners can move to all areas of Tigray, from any accessible corridors, provided they have received EDRMC support letter.

The Logistics Cluster is supporting partners in the compilation of the movement needs, notifying EDRMC and compiling the information of the confirmed arrivals

To receive the EDRMC support letter: humanitarian partners are required to notify the Logistics Cluster of intended movement using the template provided in this document. Partners are also required by EDRMC to report back to the Logistics Cluster on confirmed arrivals.

Partners are accountable for their cargo and for timely notification of cargo movement.

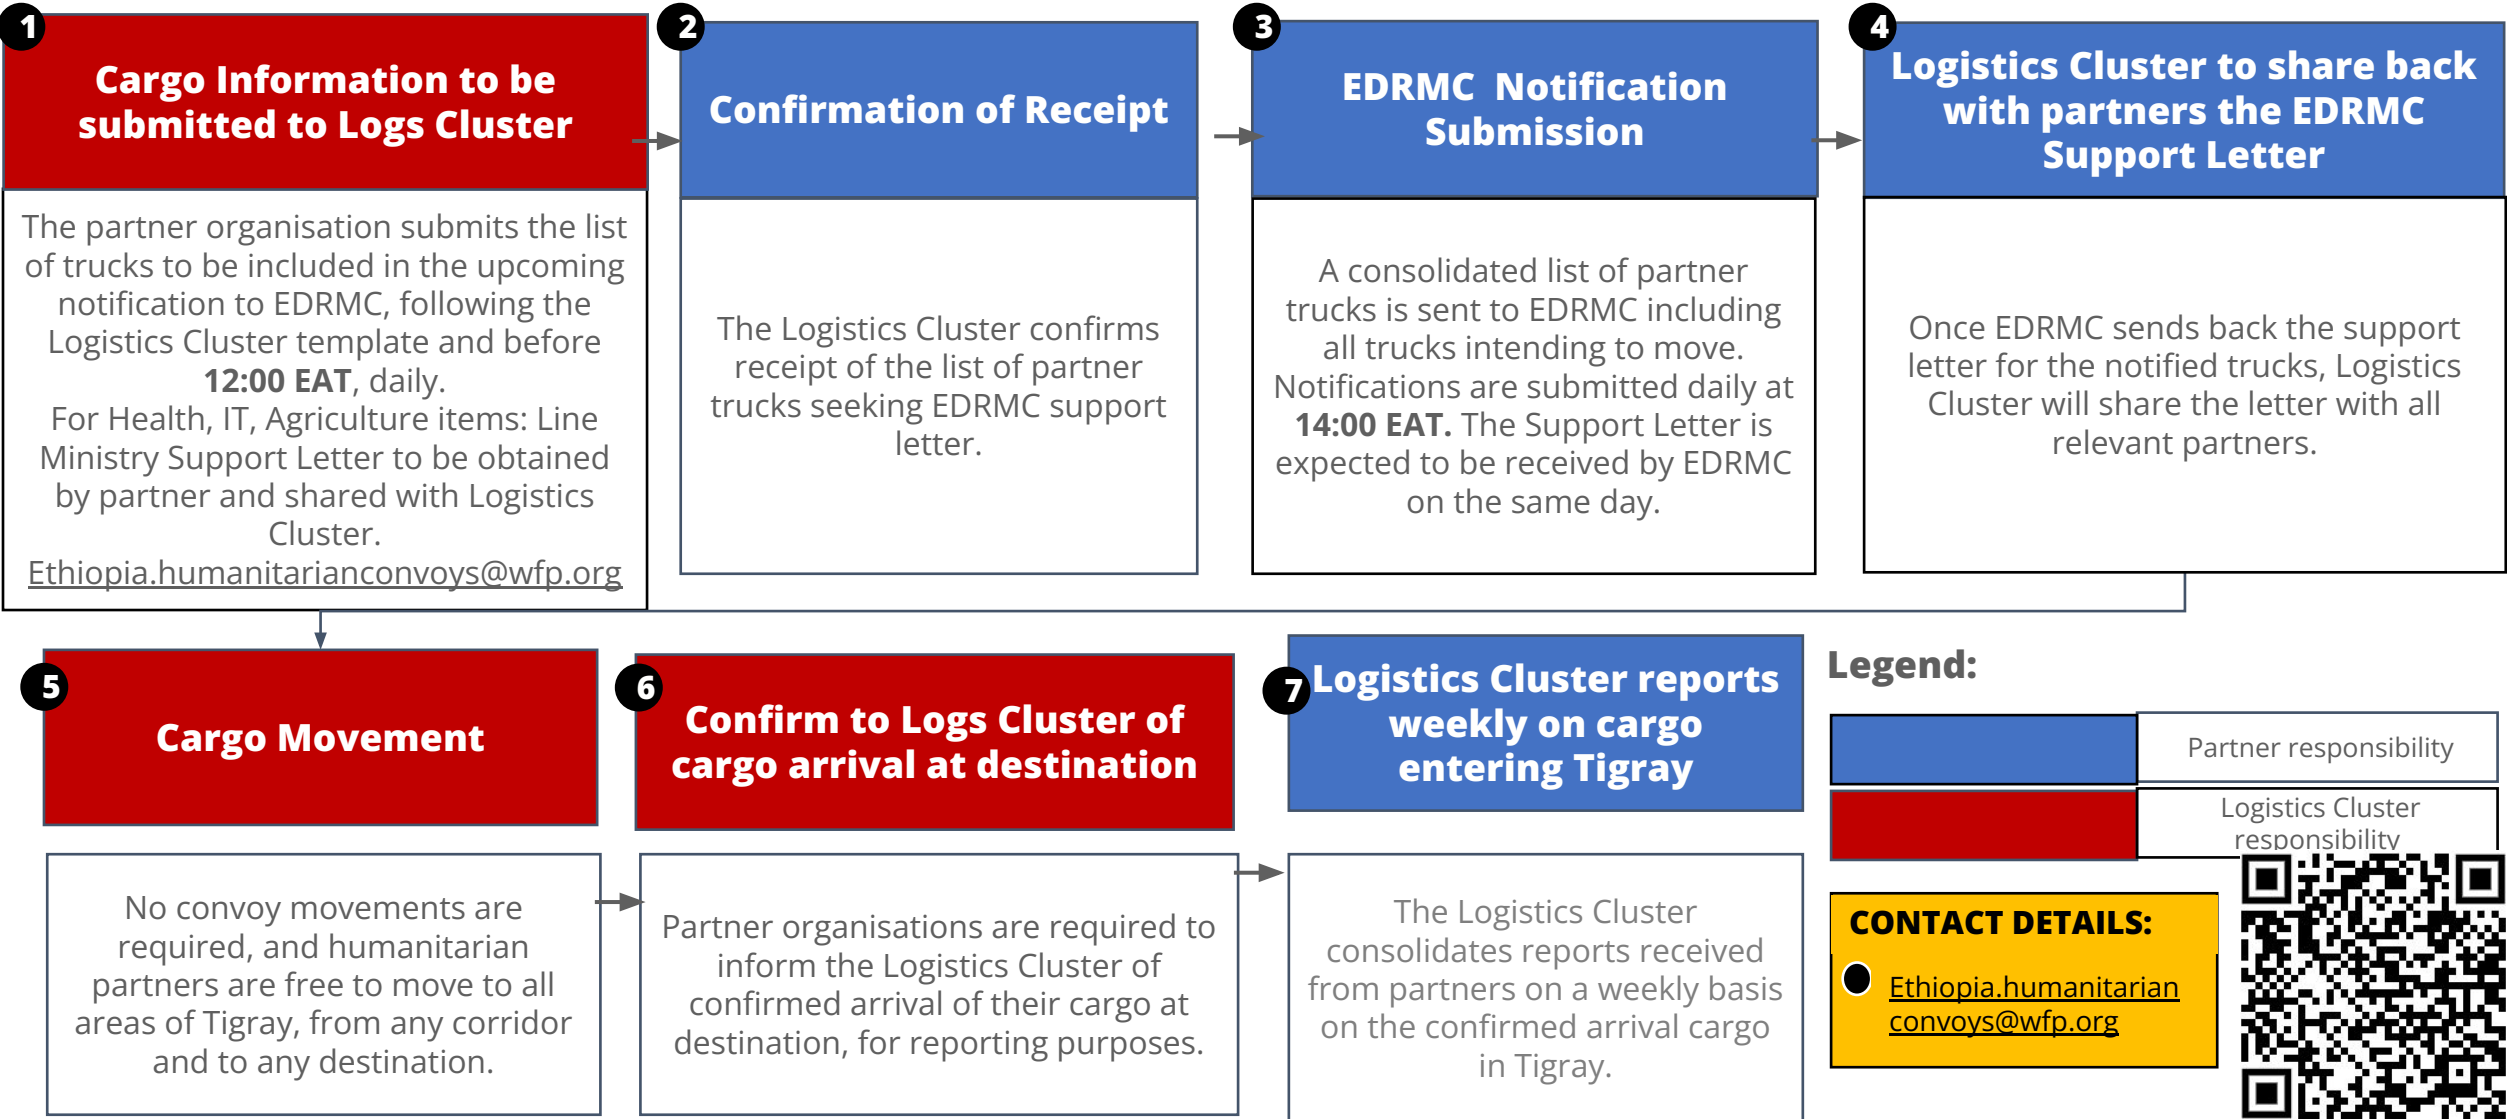

Failure to notify EDRMC may induce complications along the Humanitarian Corridors.

Process Overview: Humanitarian Cargo Movement to Tigray

ORGANISATION IS RESPONSIBLE 1) OF ENSURING TIMELY NOTIFICATION TO THE LOGISTICS CLUSTER OF THEIR INTENDED CARGO MOVEMENT, 2) OF THE SAFE ARRIVAL AT FINAL DESTINATION OF THE CARGO, AND 3) OF REPORTING BACK TO THE LOGISTICS CLUSTER ON THE CONFIRMED ARRIVAL AT FINAL DESTINATION.

NOTIFICATION TEMPLATE

[illegible]

**TO BE SENT TO THE LOGISTICS CLUSTER BEFORE 12:00 EAT DAILY, TO
ETHIOPIA.HUMANITARIANCONVOYS@WFP.ORG**

FUEL

No restriction on fuel, and it can move freely. WFP BSP will continue to provide fuel upon request and on a cost-recovery basis, until availability of commercial fuel is restored in Tigray. As for the humanitarian cargo, partners moving fuel by their own means need to notify the Logistics Cluster to obtain the EDRMC support letter.

IT equipment, health and agriculture items

Relevant line ministry support letter is required. Once received, the letters should be shared with the Logistics Cluster in order to obtain EDRMC support letter.

Cash movement

As per EDRMC "operators can present their justification on outstanding transactions or magnitude of the operation upon their request. This arrangement will serve until the banking service start"

Cargo airlifts from Bole airport

Authorities at the airport have informed the Logistics Cluster that previous procedures apply (line ministry, EDRMC and NISS clearances required for cargo to enter bole airport. more information on airlift sops available on the logs cluster website)

Weekly Operational Updates

□ Since 15 November, **37 partners** requested support letter for the movement of **3,137 trucks**. **3,134 trucks** obtained EDRMC support letter, and **2687 trucks** with 106,035.9 MT of humanitarian supplies and 970, 436 litres of fuel have confirmed arrival via the three corridors.

□ Between 29 December and 11 January, the arrival of **150 trucks** carrying **8,157 MT** of humanitarian supplies and **3 WFP fuel** tankers carrying 141,519 Litres of fuel via the Semera-Mekelle Corridor was reported.

□ Airlift:

- **5 MT** of health items on behalf of CARE and IOM was airlifted from Addis to Mekelle on 11 January and 12 January

Regional Emergency Coordination Center

Accomplishments this week

No.	Activity description	Accomplishment	Remark (explanation for over/under achievements)
1	1. Transport for partners upon request	<ol style="list-style-type: none"> 32.5 MT of WASH, Shelter and Protection items belonging to SCI, DPO and UNFPA were dispatched from Mekelle warehouse between 3 January and 11 January. Approx. 36 MT of Health, WASH and Early recovery items belonging to UNFPA, IMC and IOM were dispatched from Shire LC warehouse between 2 January and 5 January. The Logistics Cluster received in Mekelle 10.24 MT of Health and WASH items belonging to HI and WHO on 04 January and 05 January Airlift of 5 MT of health items on behalf of 2 partners 	
	Storage for partners upon request	<ol style="list-style-type: none"> In Mekelle the Logistics Cluster is storing approximately 319.7 MT of WASH, Shelter, Health, Education, Protection, General Operation and NFI on behalf of ten partners. In Shire, the Logistics Cluster is storing approximately 127.3 MT of Health and WASH on behalf of 4 partners. 	

Plan for next week

No.	Activity Description	Operational location (woreda)	Plan (qty)	Available resources	Remark (any preconditions, support needs, etc)
1	Facilitate Transport Services	Semera-Mekele Gondar-Shire Kombolcha-Mekelle	Daily request for EDRMC support letter on behalf of partners.		
2	Facilitate Warehouse Service	Mekelle and Shire	Upon request	Mekelle (3500 m2), Shire (730 m2)	Subject to partner request and operational constraints
3	Facilitate airlift services	Addis Ababa-Mekele Addis Ababa- Shire	Nothing planned for the moment	Boeing 737 13MT per trip (subject to volume of cargo)	Subject to partners required clearances
4	Sharing Information Management Products to Partners	Online	Weekly, monthly	https://logcluster.org/ops/eth20a	

Challenges

□ Partners not reporting on the arrival of their trucks.

Regional Emergency Coordination Center

Nutrition Cluster Update

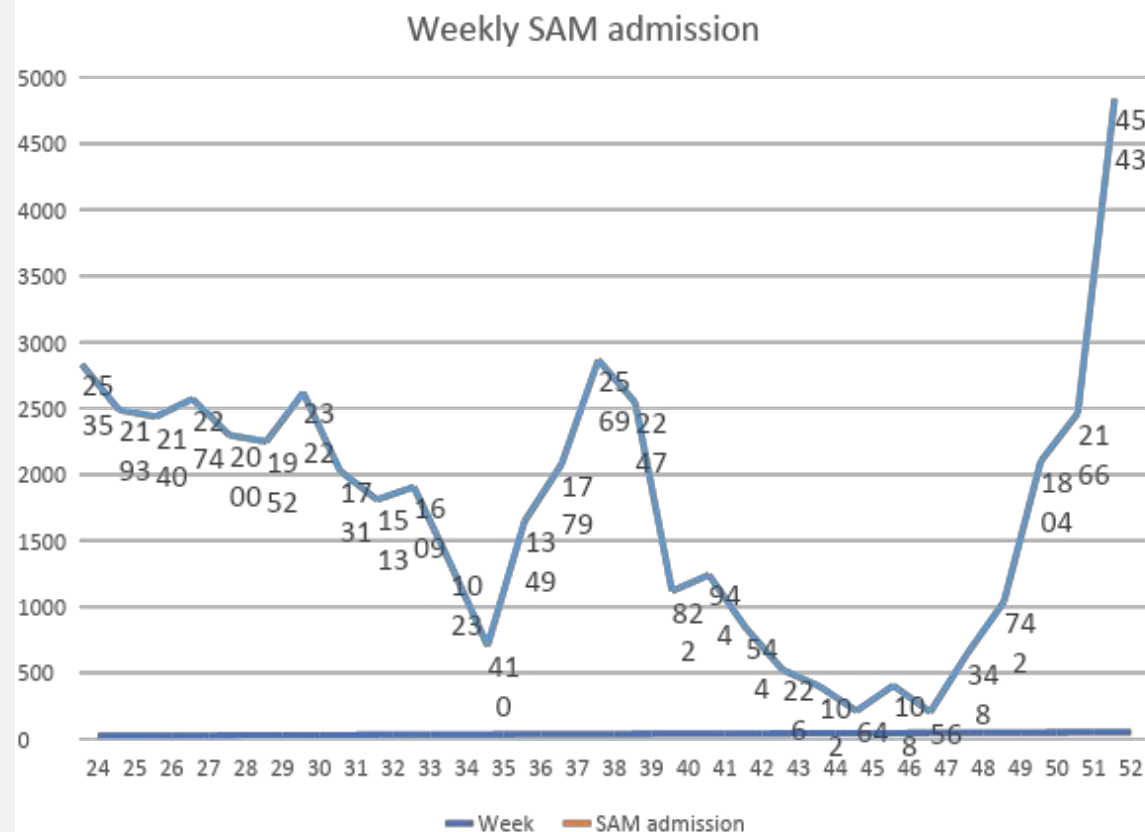

Regional Emergency Coordination Center

Nutrition-Context and Requirement

- 99906 children screened, 33.4 per cent (33327 children <12.5 cm MUAC or proxy GAM) and 3.14 per cent (3142 children <11.5 cm MUAC or proxy SAM).
- 21614 PLW screened, 55.4 per cent (12068 PLWs are <23cm MUAC) of acutely malnourished.
- A total of 4543 SAM children admitted for treatment and out of it 4410 children < 5 were admitted to OTP and 130 SC admissions for SAM treatment. **This is the highest weekly admission in 2022.**
- 50,000 carton of RUTF for January-march 2023 released by UNICEF AA and expected to come to Tigray soon.
- Partners taking nutrition supply and not distributing to health facilities. It is reported that supplies are at partners warehouse.
- Non availability of the health workers in health facilities created a biggest challenge for nutrition intervention as availability for supply improves.

Supplies Update

Commodity	Requirement	Received in Tigray through all open corridors	Released	Pipeline	Gap
RUTF(three months requirement)	50,000 cartons	33,000 cartons	16,000 cartones released	50,000	0%
RUSF	260 MT	197.7MT	197.7MT		62.3 MT (24%)
CSB++	670 MT	818 MT	566MT	150 MT	0MT (0%)
F75	323 cartons	227 cartons	77 cartons		96 cartons
F100	205 cartons	200 cartons	55 cartons		5 cartons

Regional Emergency Coordination Center

Challenges

- Supply in partners warehouse is delayed to sent it to health post and health centers
- Supply miss use as most of nutrition supplies are seen in the market.
- Health workers require financial support to ensure that they deliver health and nutrition services in their respective facilities.

Health Cluster Update

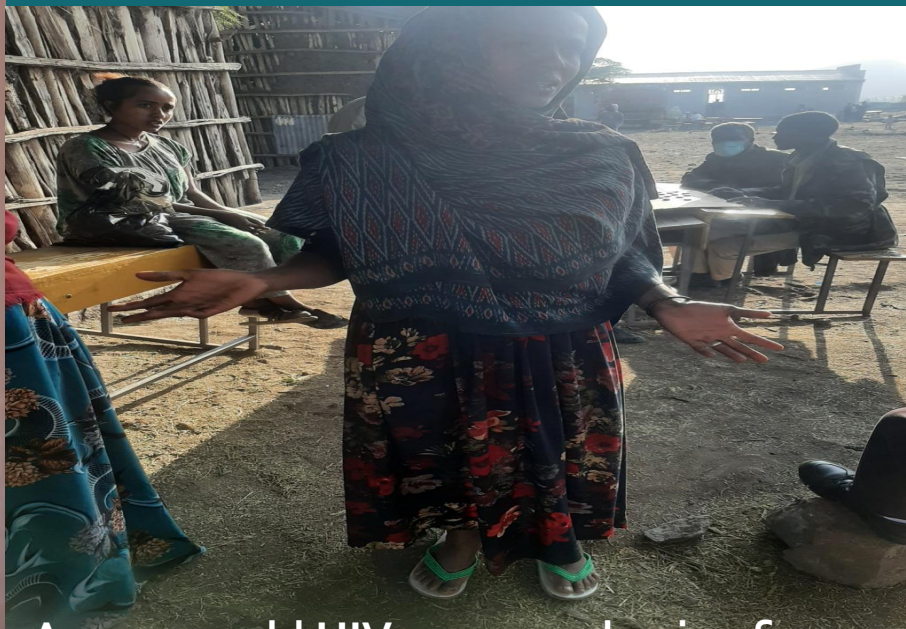

Regional Emergency Coordination Center

Investigation and response

A 35 years old HIV + women having five children, interrupted her ART for more than two months. Imaichwe IDP

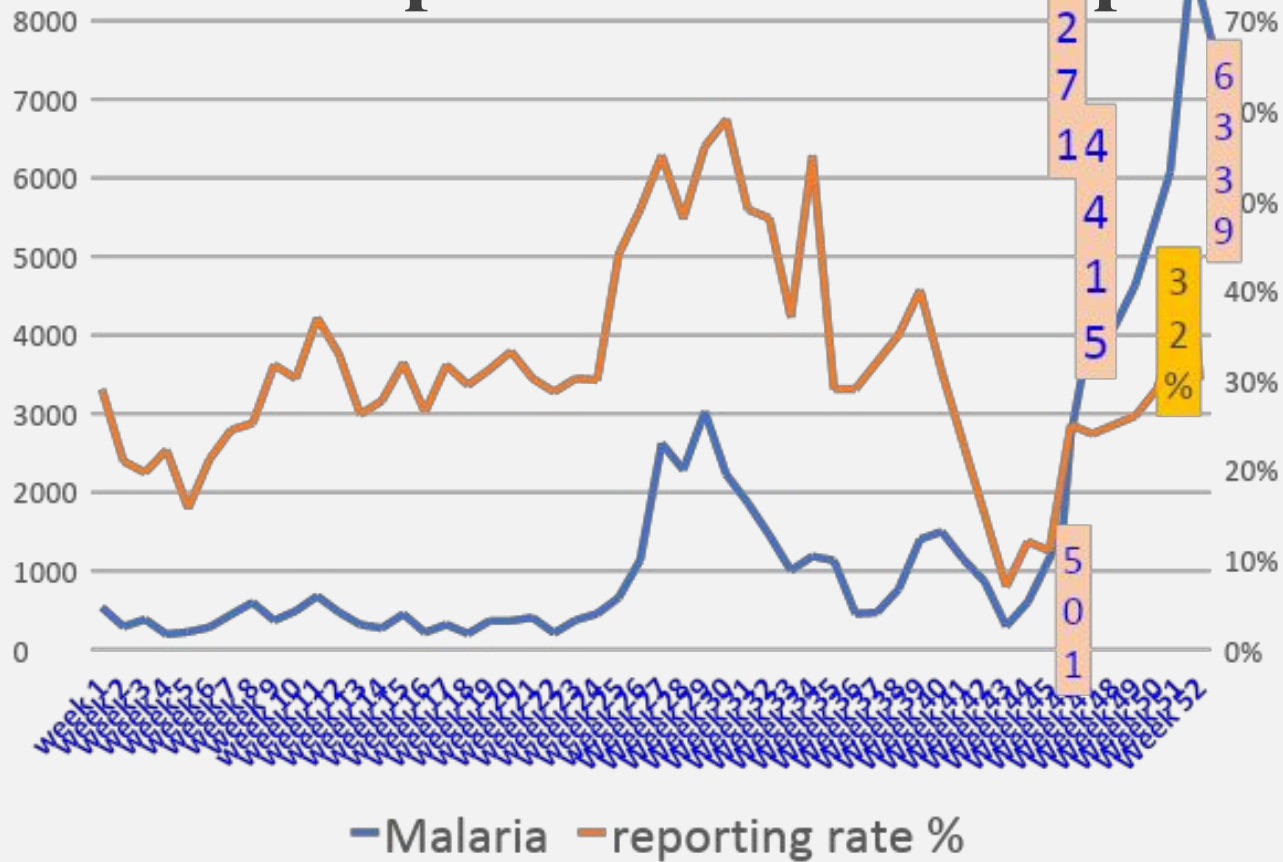

The people forced to use such herbs as medicine for malaria

Health Cluster
Update for
ECC
Week 52

Situation Update of Malaria Epidemic

✓ In contrary to the horrific situation Partners are totally devoid of antimalarial supplies

✓ Needs urgent solution and direction by the ECC to avail these supplies.

- ▶ Phase one already conducted in Ten weredas with support of partners and came up with the heart teaching case stories.
- ▶ **The team provide response in 35 Hfs and 91%** of the health facilities reported malaria epidemic
- ▶ **64%** of the catchment kebelles affected by the epidemic (total kebele:120)
- ▶ 42,793 total malaria cases reported from Epi week 19-51,2022 from 10 weredas
- ▶ There were **206** reported severe cases and referred to hospitals: (3 P/hospitals only))
- ▶ Total deaths **39** (community:28), community deaths were clinical cases diagnosed by HEWs.
- ▶ Malaria epidemic has occurred even in non-malarious weredas like Slewa (> 3000 masl)

Case scenario 1

- During October and November, there were no anti-malaria drugs in Samre.
- The people forced to use such herbals as medicine
- They squeeze tthis oloe and drunk the fluid come out of I
- They drunk the aloe liquid part at fasting time.

Case scenario 2

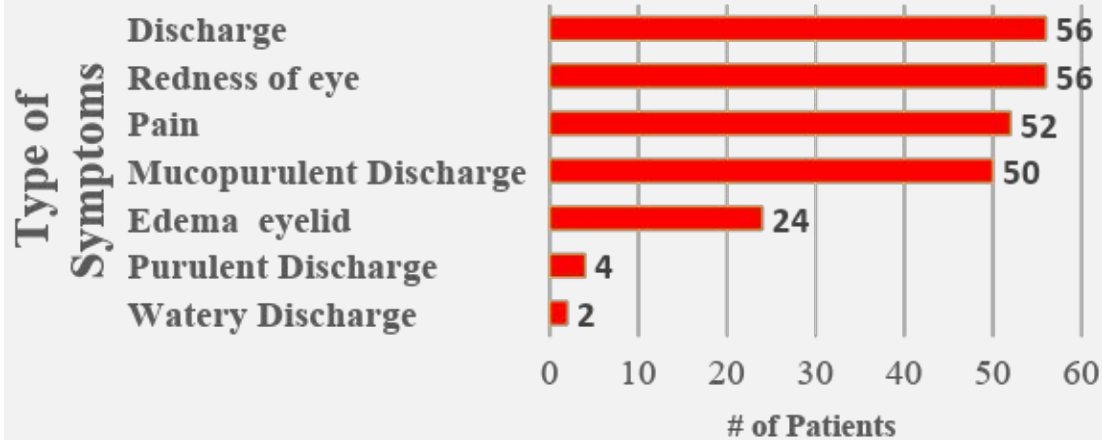

Teamir Giday is 6-month old leaving in Lemelem Kecherwa Kebelle, Samre Wereda. During the campaign he becomes positive for malaria and SAM case on screening., his mother died when she went to Finaruwa PHCU from Woyn kebele by traditional ambulance to give birth, on the same day his father died by flood accident when he had went from Samre to Woyn to support his wife during delivery. Finaly Teamir left with mother and father (orphan).even he might have died unless the team reached him prvide the antimalarial medicine.

- We get these heart breaking case stories from Samre nearby to mekelle You can imagine what will happen in the inaccessible and malaria hot spot wereda like T/maichew and chilla where alerts of outbreaks reported.

Health Cluster
Tigray

Eye diseases finding ...

Recommendation

- Better to distribute and apply mass treatment with Tetracycline, Ciprofloxacin and Gentamycin
- Needs mass screening of children's to conjunctivitis

Health Cluster
Tigray

Case scenario...

- A 7-month unvaccinated male child Presented with redness of eye, discharge (Purulent), pain and eyelid oedema
- **Three** months duration, Not improved with medication (Ointment)
- Took culture sample and S. Aureus isolated
- Prescribed ciprofloxacin 0.3% QID + Oral antibiotics but these medicines are not available in the area. The fate of this child is blindness.

, Southern Zone .

An outbreak of Epidemic Typhus has been occurring in TBoH and WHO immediately deployed to a team for Ix and response.

Of 21 identified cases , 13 (72%) were Females and 5 (28 %) Males cases.

- 11(61%) were greater than 15yrs, 5(28%) age group 5-14 and 2(11%) was among the age group of <5 .

Three male deaths (01 neonate and two >15 yrs old) All of them from the same family.

Nine peoples has been living together. Almost all member of the families(8) were infected with Typhus/RF, one patient is still not improved..

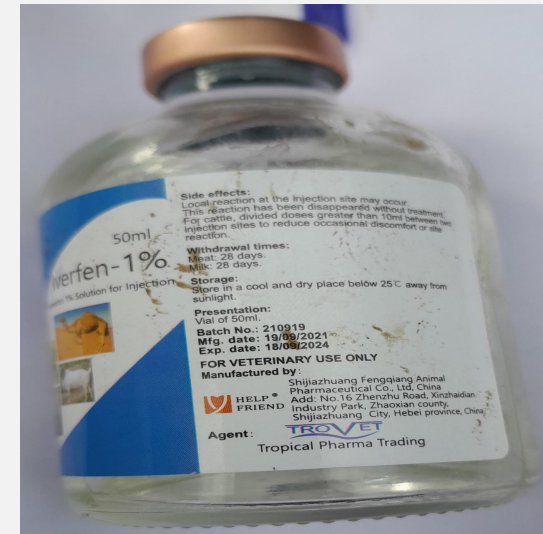

infestation of body louse in patients cloths and healthy individuals, poor personal hygiene and Mass sleeping

The problem still there hence we need urgent support and involvement of all clusters specially WASH-IPC

Severe cases suffered at home

Veterinary Ivermectine 10% to kill the louse.

Health Cluster
Tigray

Maichew, IDPs quick assessment finding

A quick assessment was conducted by MTI in collaboration with TRHB.

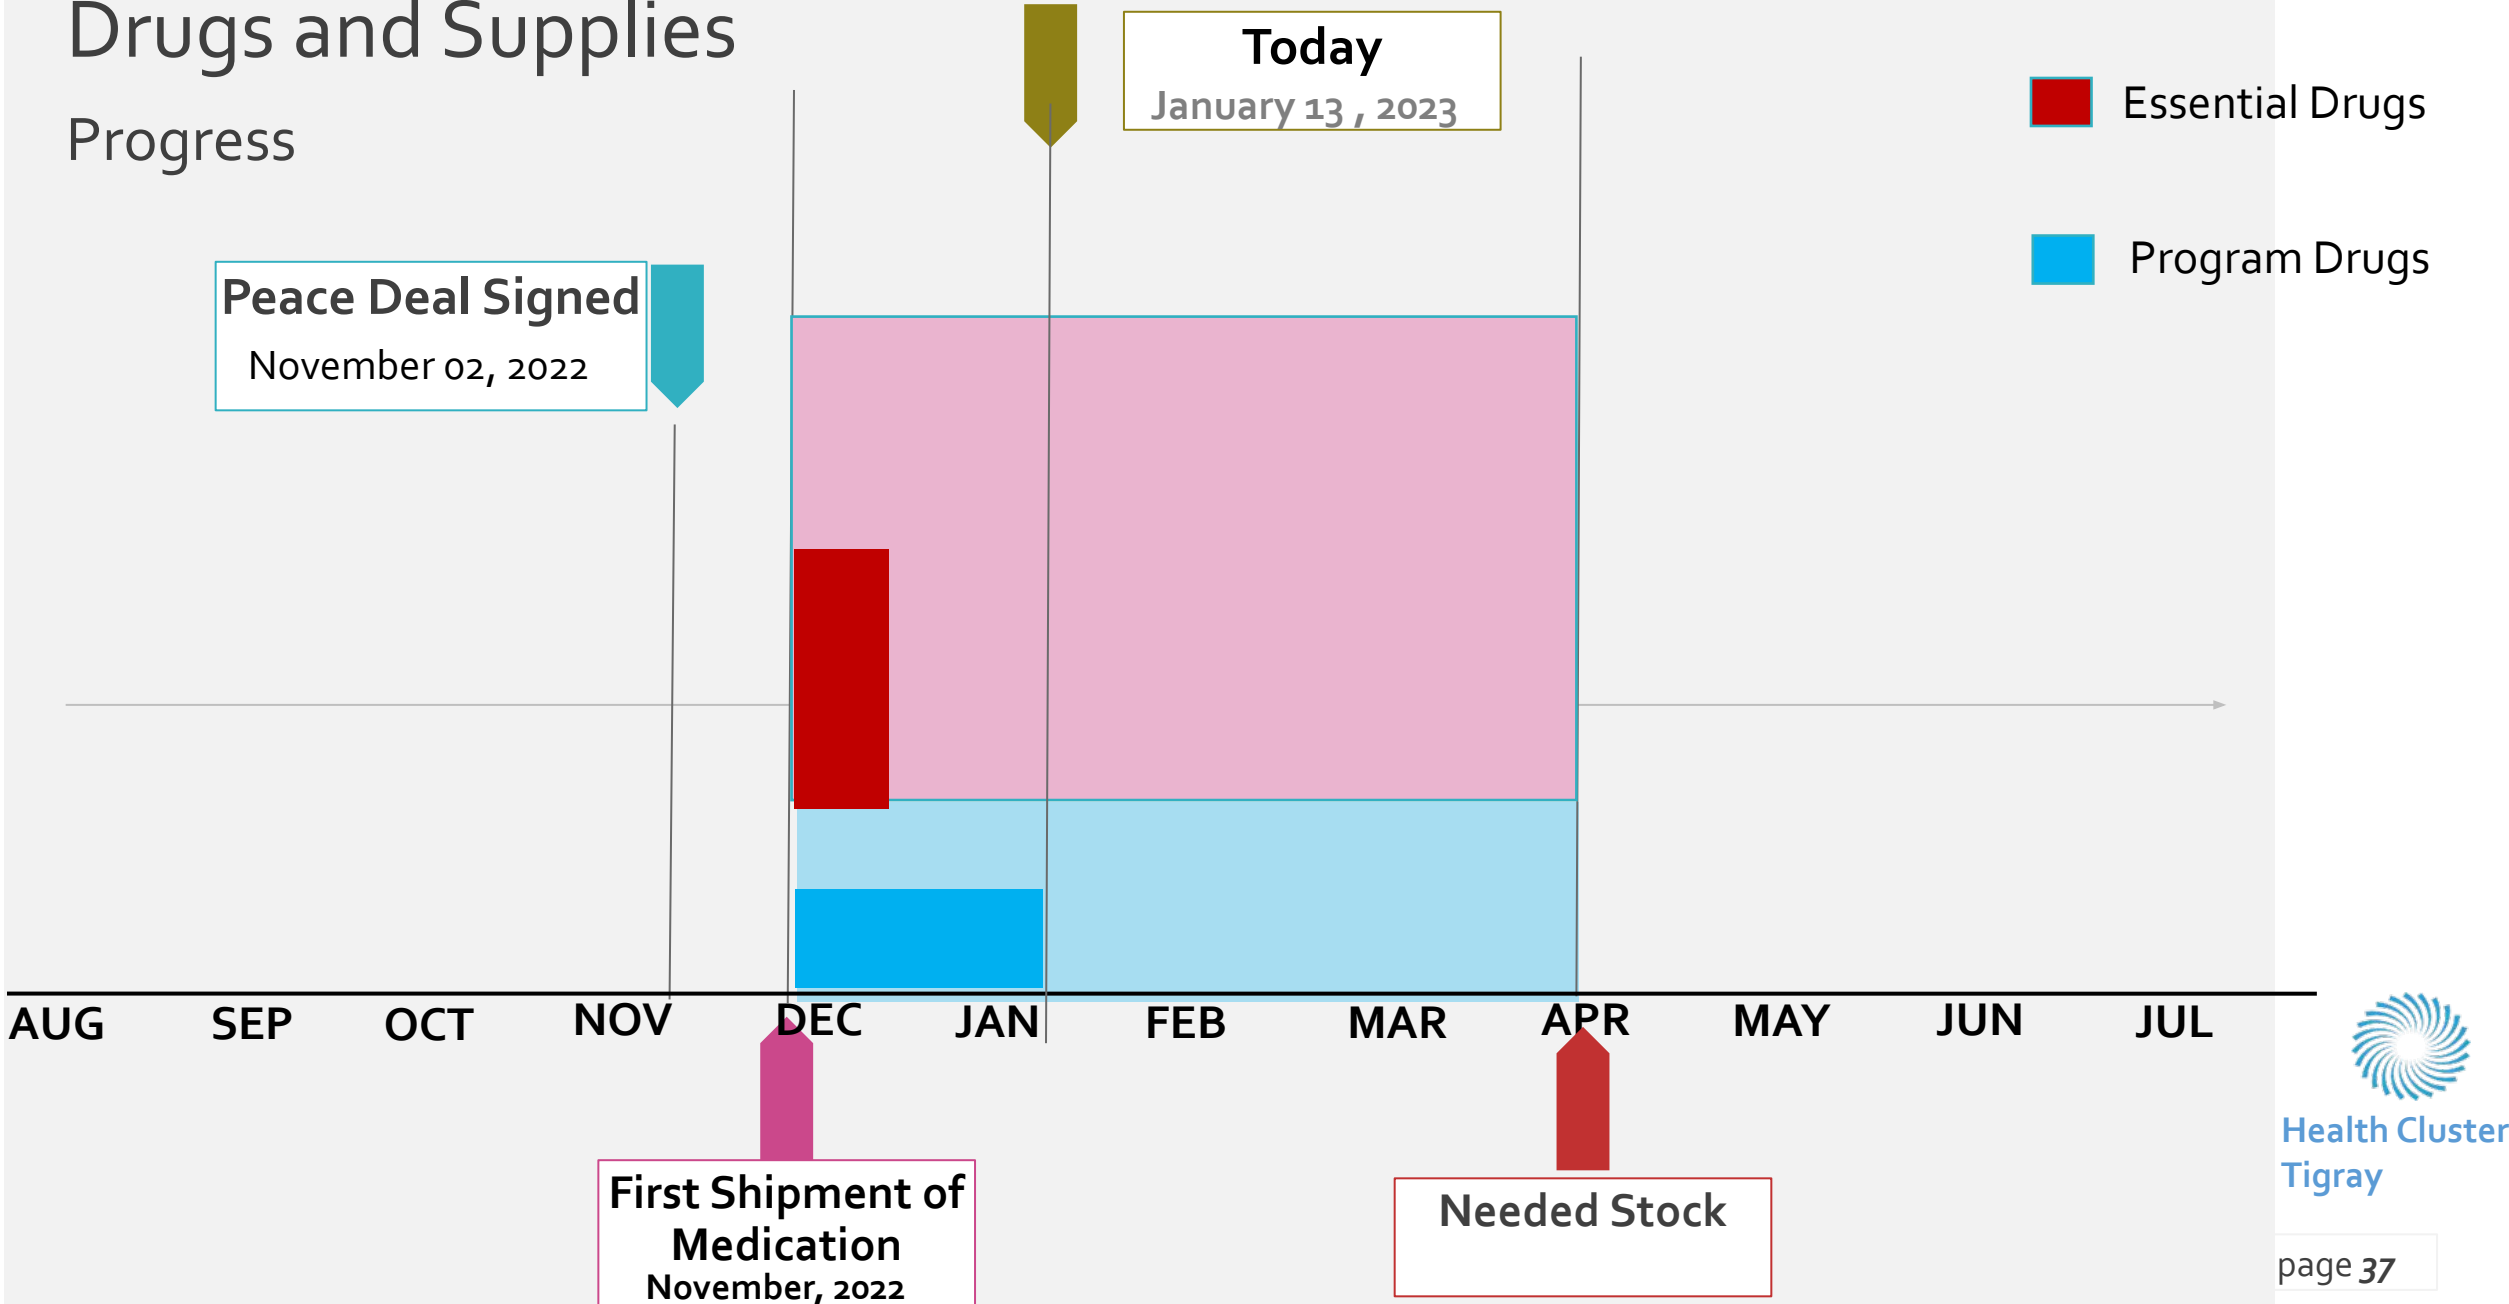

- ☐ Totally more than 181,000 people displaced (58718 @ 6 schools & remaining @ host community)
- ☐ 5112 pregnant women
- ☐ 3640 lactating women
- ☐ 20130 Individuals with NCD
- ☐ 2340 separated under five children
- ☐ 2172 disabled individuals
- ☐ 2158 older aged >60 years
- ☐ MORE THAN 6000 IDP'S after peace deal

- ☐ No food aid until now
- ☐ As a result three death occurred due to starvation ????(Ato. Moges, Socioeconomic Advisor Alamta town@ Mokeni IDP)
- ☐ Most of IDP start **begging** and NFI including Dignity Kit materials are sold to buy food (Ato. Redai zonal social advisor)
 - Maychew HC Tried to **provide health service** for IDP and host community until today but forced to **shutoff** the service in search of food for them selves.
 - No health service @ all IDP sites
 - MHNT service provided for one week only @ Maychew IDP but non @ Mokoni IDPs
 - The health cluster decided to deploy 4 MHNT composed of HCW displaced from Alamata supported by WHO.
 - Respond to shouts of FOOD urgently
 - Need huge and collaborative support from all partners and Advocacy

Drugs and Supplies

Progress

Chemotherapy Drugs and Supplies arrived on January 4, 2023

Key Numbers

- 63 drugs and supplies for chemotherapy
- 2100 patients
- 300 on active chemo patients
- 180 sessions per week
- No supply for the last 02 years
- Significant number have lost from follow up and have died

Arrivals

- **11 items have arrived**
- Will serve a total of 30 patients full cycle.

Top cases at ACSH(70% caseload)

- Breast Ca
- Colorectal Ca
- Lymphomas

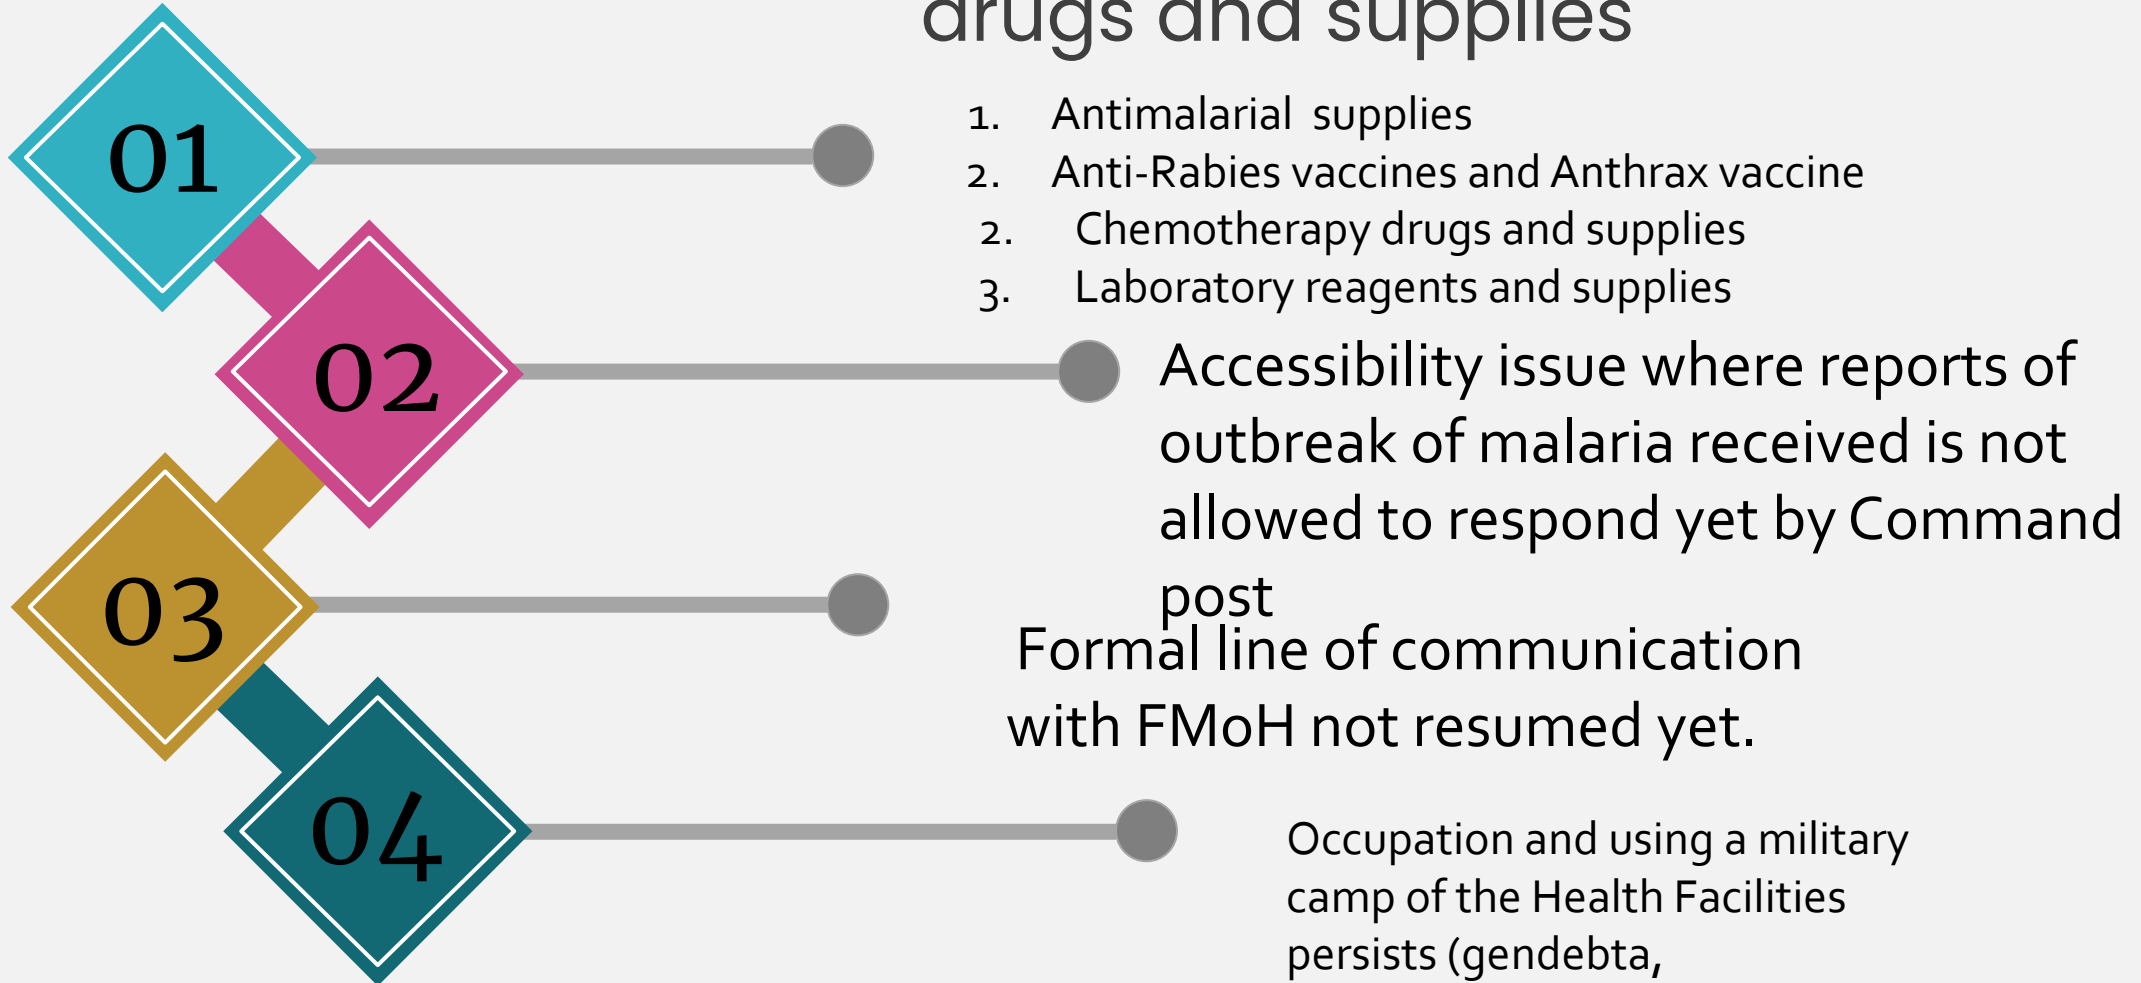

The Chemo Arrived will serve patient's with:

- Testicular Ca.
- H&N Ca.
- Skin Ca.
- Gynecologic Ca.
- Hodgkin's Lymphomas
- Ewing's Sarcoma
- Rhabdomyosarcoma

Concerns for the ECC

drugs and supplies

WASH Cluster Update

Regional Emergency Coordination Center

Operational update

TWRB in collaboration with zonal offices and WASH partners has conducted a rapid WASH situation assessment & organized workshops at Abi adi, maichew & Adigrat towns to reactivate the sub-regional clusters. The following are **Key observations**

- ❑ **Water stress** is common in all the assessed weredas (Abiadi, Adigrat, Maichew and Mekoni new IDP centers & hosting communities).
- ❑ More than 181k IDPs in **Maichew and Mekoni** are suffering due to a lack of water and sanitation service (Latrines, showers, hand wash facilities & soap).
- ❑ Over 172K IDPs and 800K HC needs WASH assistance in **Abi adi**. & Following the peace agreement, the disengaged army relocated to this area become additional burden to provide Wash service.
- ❑ Overcrowded IDPs in Maichew, Abiadi & Adigrat are highly exposed to **water-born & communicable diseases** (Scabies, diarrhoea, fungal & eye infections)

But at all the assessed weredas

- ❑ **The response of partners is very limited** only a few are responding in clusters.
- ❑ **Partners aren't reaching the remote and challenging areas** They have been working along the asphalt road and near the center of the woreda.
- ❑ **Partners' response on durable solutions** (maintenance of damaged schemes) is limited.

Regional Emergency Coordination Center

operational update in NW & central zones

- Reports of critical shortage of safe drinking water is coming from different weredas **in north western zone** (Adi-daero, Adi- nebried, Adihageray, Sheraro, Endabaguna, & Tselemti. Water schemes (hand pumps, water treatment plants, pipelines are damaged & looted purposefully for the second time and still looking partner for maintenance.
- **In central zone**, **Axum** water supply pipeline coming from the Adwa Midmar Dum is broken on the way to Axum & by now water situation at Axum is **dire**.
- Destruction of water quality laboratory , limited water testing kits & consumables has affected to ensure **water quality surveillance at Adwa** though partial water supply service is resumed.

Recommendations

- **Strengthening Zonal coordination** (Participation of partners, regular update & information sharing, coordinating resources and engagement with other clusters)
- **Prioritizing WASH response to IDPs**, maintenance of non-functional water supply schemes and institutional WASH is vital.
- **Additional WASH partners & humanitarian agencies intervention** is needed at Abiy Adi and Maichew. Further lack of presence of CCCM limits response to IDPs in Abiy Adi and Maichew.
- **Monitoring** of on/off partners (unstable partners)
- **High need for Water trucking** to meet the current need due to new displacements.
- **Chlorination of the water supply scheme** is critical
- **Strengthening the Capacity** of woreda-level maintenance team is needed.

WASH Supply analysis: 21 WASH partners managed to bring supplies (5Jan2023)

Type of WASH supplies	Unit	need	received	Gap	% received
Water supply (Repairs, maintenance and Operation)					
Generators	Set	128	16	112	13
Handpumps	Set	12,983	196	12,787	2
Pumps (Submerse / surface / mono / solar)	Set	385	24	361	6

Soap (1.8 mil soap per month needed)	Pcs	1,800,000	1,015,655	784,346	56
Water Quality					
A2SO4 (Aluminum Sulphate) (100 Kg bags)	Kg	818,000	8766	809,234	1
Aqua tab (14,000 tabs per box)	Box	22,000	80	21,920	0.4
Chlorine (HTH drum of 45 Kg)	Drums	1934	514	1,420	27
Water quality testing Kits including supplies	Kits	342		206	40

TIGRAY: WASH Cluster Weekly Response

WASH Indicator	Weekly Plan	Weekly Achievement	Weekly Ach. %
# People get access to Sanitation facilities	13,452	5,178	38
# People get access to water through the durable solution	15,278	4,927	32
# People get access to water through water trucking	31,765	22,484	71
# People provided with lifesaving WASH NFI	48,712	28,713	59
# People provided essential sanitation and hygiene message	26,419	19,976	76

Keynote :

Damage assessment indicates 4,705,002 people have no access to safe water – Durable solution

Old IDPs 668,231 (CCCM as of August 2022) + 354000 new IDPs = 1,022,231 IDPs

Annual plan for 2023 and HRP 2023 preparation ongoing to define Total Need, prioritization and target

Regional Emergency Coordination Center

Key challenges

- **Access:** Many of the woredas are still not accessible.
 - This affects distribution and WASH maintenance work.
- **Funding** is very limited with WASH partners
 - No funding since October 2022.
- **Supplies:** Very limited and reducing every week.
 - Most supplies are related to NFIs and Very limited supplies for repairs and maintenance work.
 - Cost of EM items is high
- **Response needs v/s Scale of response.** Needs are high and low scale-up capacity.
 - Further, the cost of WASH response is significantly high. Water trucking and desludging cost have increased in the region.
- **Technical staffing** – The number of staff and technical capacity is very limited among WASH partners.
 - No technical support visits noted from National offices
 - No additional staffing noted among partners
- **Sustaining and capacity building** at Zonal & Woreda level technical staff to ensure operations and maintenance of WSS
 - Many technical field staffs are leaving / not working as they were not supported in the last 2 years
 - The tools and equipment have been lost
 - Training / Refresher training needed
 - Lack of resources and hunger - no support for survival needs
 - Lack of salary in last 18 months to Water sector staff resulting in no/limited services

Emergency Shelter & NFI Cluster Update

Regional Emergency Coordination Center

Contextual update

- Four ES/NFI Cluster partners are conducting damage assessment in SC-4 IDP site to identify the level of damage and items needed to maintain the damaged shelters.
- According DTM ETT 150 report a total of 172, 530 Ind/41867HH IDPs were displaced from North Gonder, Central, Northwestern, Waghamara, West Gonder and Western zones to different woredas of Central and Northwestern Zones of Tigray. About 38,971 HH / 165,531Ind IDPs were also turned to Asegede, Axum, Shir, Sheraro, Tahatay Adiyabo, Tahatay koraro Mai tseberi, Makelay Adiyabo, seyemti Adiyabo, Tahatay Maychew and Adi Dearo from different parts of Tigray.
- The 82HH IDPs relocated from Afar Agatina to Mekelle Quiha still planned to relocate to any IDP site in Mekelle, searching for empty IDP site.
- According to EDRMC assessment report a total of 71K new arrivals were registered in Shire town and currently living in extreme need of shelter and NFI assistance.
- CCCM, Education and ES/NFI Clusters were discussed and proposed shelter options such as relocation of IDPs to the empty shelters, expansion of the existed IDP sites, rental support, government finished structures/private unfinished buildings, area-based approach, and as last resort collecting IDPs to 4-5 schools.

Challenges Encountered

- Access is still challenging cluster partners to distribute the ES/NFI to the needy people specially in some parts of Eastern and Southern zones.
- Movement restriction to Gulomekada and Erob weredas of eastern zone challenging to reach out the IDPs living in the areas.
- Limited ES/NFI supplies available in stock and in pipeline comparing to current demand of shelter and NFI in the region.
- No clear direction on the new shelter construction, expansion of the existed shelters and return of IDPs living in schools.

CCCM Cluster Update

Regional Emergency Coordination Center

Education Cluster Update

Regional Emergency Coordination Center

- The **delay to reopen school** has become a constraint to the education cluster response.
- **Hold a tripartite discussion with CCCM & ESNFI/IOM** to seek solution and the way forward to handling the issues of IDPs in schools in preparation for school reopening.
- **Reactivated the Sub Regional coordination hubs** in Maichew, Abiyi Addi, Shire, Axum & South Eastern zone
- **Huge community demand** for school reopening but **teachers' livelihood remained unaddressed and a bottleneck for school reopening.**

TIGRAY EDUCATION CLUSTER - Accomplishments in the Week

No	Activity description	Plan	Accomplishment	Variation	Location	Remark
1	IDP and Host community children reached with education and emergency services: WV, I1D, IRC, SCI, ERDA, M4M, Don Bosco, Sister of Charity, SRO, HoH, Self Help	18,564	15,661	2,903	Shire, Adwa, Abiyi Addi, Mekelle, & South Eastern	
2	School Feeding Services: IRC, ERDA, ORE, I1D, SCI, SRO,	5,000	3,421	1,579	Mekelle, Abiyi Addi, Shire	
3	School Cleaning: Adigrat Town	120	120	0	Adigrat	
4	Dignity kits Distribution: SCI	290	290	0	Shire	
5	Dispatched Exercise Books (PCs): I1D	19,638	19,638	0	Seharti, Samre	Can cover 3,920 children
6	Dispatched Combined Desks: I1D	96	96		Seharti, Samre	Can serve 288 children
	Total Reached		15,661			Access remains a

- **Lack of funding** to reactivate the education structure and address **teachers' livelihood**.
- **The use of Schools as a shelter** by IDPs and non education activities **impacting the implementation of non-formal education**.
- **The absence or limited presence** of education partners due to the lack of funding. For instance, no education partner presence in Adigrat while there are **16,520 (9,925 girls) school age IDPs children who** seek access to education services.
- **Access to areas** where IDPs children access education remains challenged.
- **Absence of certification** of schools for **UXOs clearance** to ensure a safe learning space.

Protection Cluster Update

TIGRAY: Protection Cluster Updates

- Imagine 1 Day and ICRC facilitated FTR for 55 children (5 girls and 50 boys) from their temporary shelter in Elshadai to different woredas of Tigray (Degua Temben, Samre, Hintalo and Hagreselam). Of the total number, 53 (3 girls) - by I1D and 2 –by ICRC
- Imagine 1 Day provided full package to each reunified child.
 1. 4622 ETB cash to each child and a total of 244,966 ETB
 2. NFIs (Complete clothe) each cost 2000 ETB and total cost 106,000 ETB
 3. Scholastic materials (exercise books and pens), total cost 23,850 ETB.

Total imagine 1day has invested 374,816.00 birr with out transportation and other accommodation

THANK YOU AND GOOD BY AT ELSHADAY

DURING RENUFICATION WITH FAMILY

TIGRAY: Protection cluster Challenges encountered

- 991 HH displaced from Alamata, Chercher , Gulomekeda, Irob and Zalamebesa sheltered in Mayliham and Yekatiti-11 (524 in Mayliham and 467 Yekatit- 11). elementary school **they are suffering by shortage of humanitarian assistance**, (Water,NFI,Medicen,light)
- Lack of sanitary pad and soap is currently the main challenges of women and girls at reproductive age (14-49) in all IDP sites
- Partners unable to bring supplies due to prioritization for life saving items, delay on procurement and shortage of CP&GBV supplies at local market with fair price.
- In Abi Adi, UNHCR with it's Partner distributed NFIs to 2392 vulnerable HHs, and donated assorted cloth to 700 individuals,

Regional Emergency Coordination Center

Protection cluster update

- According to BOSEGE, risk of HIV AIDS transmission is a growing concern in the IDP sites as well as IDPs living with host community particularly in Abi Adi,& Adigrat
- Shortage of life-saving assistance i.e., food & NFI in among the IDPs that causes a major protection concern for the wellbeing of IDPs (women, children, elderly & person with disable).
- CP-AoR partners have limited geographical coverage/inaccessible areas compared to the large need for Child Protection, therefore, **Family Tracing and Reunification** remained constrained.
- Limited number of active GBV partners in the region only 7 are reported this week
- Communication difficulties, movement restrictions, and access to cash are among the challenges often faced by the partners in responding to humanitarian needs

Agriculture Cluster Update

Contextual update

- The Ag. Cluster focused on:
 - Irrigation season October 2022 – May/June 2023
 - Livestock health response – Especially Zoonotic and public health concerns
 - The 2023 Belg and Meher Agricultural Seasons' Production
- Recovery, Reconstruction and Resilience
 - Review of the various elements across Agriculture subsectors

Accomplishments – Livestock

Veterinary Vaccines

- Required: 12 million doses
- Delivered and in use: 2 million
- Clearances being sort for freight: 2 million doses
- Procurement ongoing: 2 million doses

Veterinary Drugs

- Required: 3.5 million doses treatment - max of 12 million prophylaxis
- Delivered and in use: 1 million doses
Recently Delivered : 912,000
- Delivered in Mekelle – 2 million doses of assorted drugs & treatment equipment.

Veterinary Equipment

- Required: 198 Clinics
- Delivered and in use in 6 woredas
- Delivered in Mekelle: 48 Cold chain and assorted equipment for 48 clinics.

Accomplishments – Livestock

Accomplishments – Crop + horticulture

Sweet Potato – Planting materials

- Required: 15 million cuttings
- Secured: 7,175,000 cuttings
- Delivered: 6,855,000 cuttings

Fertilizer

- Required: 17,000 tonnes
- Secured: 8,315 tonnes (37 ZOA)
- Delivered 5058.05 tonnes
- Dispatched from Mekelle to FDP 945.2 MT
- Distributed 36.3 MT as of 12-Jan-2023

(BoANR & federation dedicated 9 7&2 trucks) respectively

The remaining 3,255.1 (share for the inaccessible zones to be delivered yet)

Cereal seeds

- Total need for seeds 500,000 to be planted on 1,320,430 ha of land
- Seed available in Tigray (Unions) 37755.60 (Wheat+Sorghum+Teff)
- Dedicated partners: 25,173.5 costs 1,925,000 ETB (ZOA)
- Seed multiplying cooperative was established
- Seed core team and technical team were established

Regional Emergency Coordination Center

Accomplishment - Crop

The teams that were deployed to three different zones

- Central zone 4 woredas
- Eastern zone 9 woredas
- South east 7 woredas

for beneficiary selection were back to office with all necessary data for the distribution and

- Distribution had been started 10-Jan-2023

Accomplishments Natural Resources

Natural Resources

- Assessment of forest pest outbreak in Desea State forest undertaken.
- 30-40% of 38,000Ha of forest being ravaged by the pest (suspected to be Olive Lace Bug).
- Cluster alerted relevant authorities.
- Field visit was conducted to Desea Forest area recently. Communicated with relevant bodies.

Plan for next week – mobilization & distribution

- ✓ Distribution of fertilizer in the accessible woredas
- ✓ Allocating and Distribution of the arrived equipment and vet drugs to woredas
- ✓ Movement of Vet Vaccines, drugs, equipment and vegetable seeds to Mekelle
